Was flowing effects the artists' desire for the viewer to enjoy towards observation and the mere act nature of watching them

There are a few stories to tell today
POKE
So there is particular story that makes me so you? Or anything that you particularly like?

Hmm...
I want to meet the peddler!
The peddler?
I've prayed for a long time for something to change
I wished to become more beautiful and richer... to experience everything in a good environment
Like you, Amber!
Are you jealous of me?
Oh.
N-no I really shouldn't do that. Our social statuses are different
You brought me here, we're alone, so...
INFER...
You don't have to act so affectionate...

I wish to have for a little while... and to sit with others once more
It's cold, so you should stay inside.
You stood in dangerous... as a servant of accompany you on your journey back. He is warning of the interview of the monsters
Alright!
Oh, and Amber...
People usually can't see what they are blessed with
The reason why you are not satisfied with how you currently are is because you do not love yourself.
You should take a deeper look at yourself. You are beautiful enough
...
Thank you...
Rest well and come back soon...
I will let you hear my next story.
Amber.

Amber Notice

Thank you to all the readers
who have loved Amber so far

Amber was initially planned
as a 20 episode webtoon,
but when I started working on it,
I realized that the story had more detail to it

As it progressed, the story got longer
for sure, for not giving you a lot of stories,
and for restricting the length of the current stories.

Thus, in the end of the first season
If I am able to continue this webtoon,
I promise to revisit some old stories

I will be going away due to my private matters
I will have lots of time to get ready,
and I will return with a better story

Until then,
I will close this bookcase

Be well.

Thank you to
